

C TECH CORPORATION

GRADES OF RODREPEL®™

CABLE GRADES- INDIA SPECIFIC

Grade	Physical Form	Compatibility	Application	Region	Strength
RR0306	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Asia- India specific grade	High- effective against most aggressive species and long life span
RR0315	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Asia- India specific grade	High- effective against most aggressive species and long life span
RR1512	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Asia- India specific grade	Very High- for sensitive applications- nuclear, defense with severe conditions
RR2403	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Asia- India specific grade	Very High- for sensitive applications- nuclear, defense with severe conditions
RR0711	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- wires, cables for under the hood harnesses	Asia- India specific grade	Mild- against all kinds of species for a shorter duration

RR2511	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- wires, cables for under the hood harnesses	Asia- India specific grade	Mild- against all kinds of species for a shorter duration

CABLE GRADES- EU SPECIFIC

Grade	Physical Form	Compatibility	Application	Region	Strength
RR0207	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Europe	Effective against species found in Europe ex. Norway rat, long life span
RR0216	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Europe	Effective against species found in Europe ex. Norway rat, long life span
RR1413	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Europe	Sensitive applications (defense, military) specific to European region, very high strength
RR2304	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Europe	Sensitive applications (defense, military) specific to European region, very high strength
RR0612	Liquid solution	Liquid, organic solvents (primarily	Coating- wires, cables for under	Europe	Mild- against species found

		for water based paints)	the hood harnesses		in Europe for a shorter duration
RR2412	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- wires, cables for under the hood harnesses	Europe	Mild- against species found in Europe for a shorter duration

CABLE GRADES- MIDDLE EAST ASIA

Grade	Physical Form	Compatibility	Application	Region	Strength
RR0108	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Asia-Middle east specific	High- effective against most aggressive species and long life span, severe temperature conditions
RR0117	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Asia-Middle east specific	High- effective against most aggressive species and long life span, severe temperature conditions
RR1314	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Asia-Middle east specific	Very High- for sensitive applications- nuclear, defense with severe conditions, severe temperature conditions

RR2205	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Asia-Middle east specific	Very High- for sensitive applications- nuclear, defense with severe conditions, severe temperature conditions
RR0513	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- wires, cables for under the hood harnesses	Asia-Middle east specific	Mild- against all kinds of species for a shorter duration
RR2313	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- wires, cables for under the hood harnesses	Asia-Middle east specific	Mild- against all kinds of species for a shorter duration

CABLE GRADES- SOUTH EAST ASIA

Grade	Physical Form	Compatibility	Application	Region	Strength
RR0099	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Asia-South east - Including Malaysi, Singapore and parts of China	High- effective against most aggressive species and long life span, severe temperature conditions
RR2331	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Asia-South east - Including Malaysi, Singapore and parts of China	High- effective against most aggressive species and long life span, severe temperature

					conditions
RR1215	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Asia-South east - Including Malaysi, Singapore and parts of China	Very High- for sensitive applications- nuclear, defense with severe conditions, severe temperature conditions
RR2106	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Asia-South east - Including Malaysi, Singapore and parts of China	Very High- for sensitive applications- nuclear, defense with severe conditions, severe temperature conditions
RR0414	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- wires, cables for under the hood harnesses	Asia-South east - Including Malaysi, Singapore and parts of China	Mild- against all kinds of species for a shorter duration
RR2214	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- wires, cables for under the hood harnesses	Asia-South east - Including Malaysi, Singapore and parts of China	Mild- against all kinds of species for a shorter duration

CABLE GRADES- AUSTRALIA AND AFRICA

Grade	Physical Form	Compatibility	Application	Region	Strength
RR0081	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Australian and African regions	High- effective against most aggressive species and long life span, tropical conditions
RR2232	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Australian and African regions	High- effective against most aggressive species and long life span, tropical conditions
RR1116	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	Australian and African regions	Very High- for sensitive applications- nuclear, defense with severe conditions, tropical conditions
RR2007	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	Australian and African regions	Very High- for sensitive applications- nuclear, defense with severe conditions, tropical conditions
RR0405	Liquid solution	Liquid, organic solvents (primarily for water based	Coating- wires, cables for under the hood	Australian and African	Mild- against all kinds of species for a

		paints)	harnesses	regions	shorter duration
RR2115	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- wires, cables for under the hood harnesses	Australian and African regions	Mild- against all kinds of species for a shorter duration

CABLE GRADES- USA AND CANADA

Grade	Physical Form	Compatibility	Application	Region	Strength
RR0072	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	USA and Canada	High- effective against most aggressive species and long life span
RR2133	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	USA and Canada	High- effective against most aggressive species and long life span
RR1017	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	USA and Canada	Very High- for sensitive applications- nuclear, defense with severe conditions, effective against larger species like grizzly bears, martens

RR1908	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	USA and Canada	Very High- for sensitive applications- nuclear, defense with severe conditions, effective against larger species like grizzly bears, martens
RR0495	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- wires, cables for under the hood harnesses	USA and Canada	Mild- against all kinds of species for a shorter duration
RR2016	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- wires, cables for under the hood harnesses	USA and Canada	Mild- against all kinds of species for a shorter duration

CABLE GRADES-SOUTH AMERICA

Grade	Physical Form	Compatibility	Application	Region	Strength
RR0063	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	South American Continent including the Amazon basin	High- effective against most aggressive species and long life span
RR2034	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	South American Continent including the Amazon	High- effective against most aggressive species and long life span

				basin	
RR0918	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Wires, cables, optic fibers	South American Continent including the Amazon basin	Very High- for sensitive applications- nuclear, defense with severe conditions
RR1809	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Wires, cables, optic fibers	South American Continent including the Amazon basin	Very High- for sensitive applications- nuclear, defense with severe conditions
RR0396	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- wires, cables for under the hood harnesses	South American Continent including the Amazon basin	Mild- against all kinds of species for a shorter duration
RR1917	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- wires, cables for under the hood harnesses	South American Continent including the Amazon basin	Mild- against all kinds of species for a shorter duration

PIPE GRADES- INDIA SPECIFIC

Grade	Physical Form	Compatibility	Application	Region	Strength
RRP0306	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Asia- India specific grade	High- effective against most aggressive species and long life span

RRP0315	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Asia- India specific grade	High- effective against most aggressive species and long life span
RRP1512	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Asia- India specific grade	Very High- for sensitive applications- nuclear, defense with severe conditions
RRP2403	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Asia- India specific grade	Very High- for sensitive applications- nuclear, defense with severe conditions
RRP0711	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- Pipes. DWC pipes, ducts, etc	Asia- India specific grade	Mild- against all kinds of species for a shorter duration
RRP2511	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- Pipes. DWC pipes, ducts, etc	Asia- India specific grade	Mild- against all kinds of species for a shorter duration

PIPE GRADES- EU SPECIFIC

Grade	Physical Form	Compatibility	Application	Region	Strength
RRP0207	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Europe	Effective against species found in Europe ex. Norway rat, long life span
RRP0216	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Europe	Effective against species found in Europe ex. Norway rat, long life span
RRP1413	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Europe	Sensitive applications (defense, military) specific to European region, very high strength
RRP2304	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Europe	Sensitive applications (defense, military) specific to European region, very high strength
RRP0612	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- Pipes. DWC pipes, ducts, etc	Europe	Mild- against species found in Europe for a shorter duration
RRP2412	Liquid	Liquid, organic	Coating- Pipes.	Europe	Mild- against

	solution	solvents (primarily for organic solvents)	DWC pipes, ducts, etc		species found in Europe for a shorter duration
--	----------	---	-----------------------	--	--

PIPE GRADES- MIDDLE EAST ASIA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRP0108	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Asia-Middle east specific	High- effective against most aggressive species and long life span, severe temperature conditions
RRP0117	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Asia-Middle east specific	High- effective against most aggressive species and long life span, severe temperature conditions
RRP1314	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Asia-Middle east specific	Very High- for sensitive applications- nuclear, defense with severe conditions, severe temperature conditions

RRP2205	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Asia-Middle east specific	Very High- for sensitive applications- nuclear, defense with severe conditions, severe temperature conditions
RRP0513	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- Pipes. DWC pipes, ducts, etc	Asia-Middle east specific	Mild- against all kinds of species for a shorter duration
RRP2313	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- Pipes. DWC pipes, ducts, etc	Asia-Middle east specific	Mild- against all kinds of species for a shorter duration

PIPE GRADES- SOUTH EAST ASIA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRP0099	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Asia-South east - Including Malaysia, Singapore and parts of China	High- effective against most aggressive species and long life span, severe temperature conditions
RRP2331	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Asia-South east - Including Malaysia, Singapore	High- effective against most aggressive species and long life span,

				and parts of China	severe temperature conditions
RRP1215	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Asia-South east - Including Malaysia, Singapore and parts of China	Very High- for sensitive applications- nuclear, defense with severe conditions, severe temperature conditions
RRP2106	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Asia-South east - Including Malaysia, Singapore and parts of China	Very High- for sensitive applications- nuclear, defense with severe conditions, severe temperature conditions
RRP0414	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- Pipes. DWC pipes, ducts, etc	Asia-South east - Including Malaysia, Singapore and parts of China	Mild- against all kinds of species for a shorter duration
RRP2214	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- Pipes. DWC pipes, ducts, etc	Asia-South east - Including Malaysia, Singapore and parts of China	Mild- against all kinds of species for a shorter duration

PIPE GRADES- AUSTRALIA AND AFRICA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRP0081	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Australian and African regions	High- effective against most aggressive species and long life span, tropical conditions
RRP2232	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Australian and African regions	High- effective against most aggressive species and long life span, tropical conditions
RRP1116	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	Australian and African regions	Very High- for sensitive applications- nuclear, defense with severe conditions, tropical conditions
RRP2007	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	Australian and African regions	Very High- for sensitive applications- nuclear, defense with severe conditions, tropical conditions
RRP0405	Liquid solution	Liquid, organic solvents (primarily for water based	Coating- Pipes. DWC pipes, ducts, etc	Australian and African	Mild- against all kinds of

		paints)		regions	species for a shorter duration
RRP2115	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- Pipes. DWC pipes, ducts, etc	Australian and African regions	Mild- against all kinds of species for a shorter duration

PIPE GRADES- USA AND CANADA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRP0072	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	USA and Canada	High- effective against most aggressive species and long life span
RRP2133	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	USA and Canada	High- effective against most aggressive species and long life span
RRP1017	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	USA and Canada	Very High- for sensitive applications- nuclear, defense with severe conditions, effective against larger species like grizzly bears, martens
RRP1908	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	USA and Canada	Very High- for sensitive applications- nuclear,

					defense with severe conditions, effective against larger species like grizzly bears, martens
RRP0495	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- Pipes. DWC pipes, ducts, etc	USA and Canada	Mild- against all kinds of species for a shorter duration
RRP2016	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- Pipes. DWC pipes, ducts, etc	USA and Canada	Mild- against all kinds of species for a shorter duration

PIPE GRADES- SOUTH AMERICA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRP0063	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	South American Continent including the Amazon basin	High- effective against most aggressive species and long life span
RRP2034	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	South American Continent including the Amazon basin	High- effective against most aggressive species and long life span

RRP0918	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Pipes. DWC pipes, ducts, etc	South American Continent including the Amazon basin	Very High- for sensitive applications- nuclear, defense with severe conditions
RRP1809	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Pipes. DWC pipes, ducts, etc	South American Continent including the Amazon basin	Very High- for sensitive applications- nuclear, defense with severe conditions
RRP0396	Liquid solution	Liquid, organic solvents (primarily for water based paints)	Coating- Pipes. DWC pipes, ducts, etc	South American Continent including the Amazon basin	Mild- against all kinds of species for a shorter duration
RRP1917	Liquid solution	Liquid, organic solvents (primarily for organic solvents)	Coating- Pipes. DWC pipes, ducts, etc	South American Continent including the Amazon basin	Mild- against all kinds of species for a shorter duration

FILM GRADES- INDIA SPECIFIC

Grade	Physical Form	Compatibility	Application	Region	Strength
RRF0306	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	Asia- India specific grade	High- effective against most aggressive species and long life span
RRF0315	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	Asia- India specific grade	High- effective against most aggressive species and long life span
RRF1512	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	Asia- India specific grade	Very High- for sensitive applications- nuclear, defense with severe conditions
RRF2403	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	Asia- India specific grade	Very High- for sensitive applications- nuclear, defense with severe conditions

FILM GRADES- EU SPECIFIC

Grade	Physical Form	Compatibility	Application	Region	Strength
RRF0207	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	Europe	Effective against species found in Europe ex. Norway rat, long life span
RRF0216	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging	Europe	Effective against species found in Europe ex.

			films, mulches		Norway rat, long life span
RRF1413	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	Europe	Sensitive applications (defense, military) specific to European region, very high strength
RRF2304	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	Europe	Sensitive applications (defense, military) specific to European region, very high strength

FILM GRADES- MIDDLE EAST ASIA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRF0108	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	Asia- Middle east specific	High- effective against most aggressive species and long life span, severe temperature conditions
RRF0117	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	Asia- Middle east specific	High- effective against most aggressive species and long life span, severe temperature conditions
RRF1314	Solid Granules	PVC, PE, PP, Polyurethane,	Films- agricultural	Asia- Middle	Very High- for sensitive

		Rubber (Primarily for PVC)	films, packaging films, mulches	east specific	applications-nuclear, defense with severe conditions, severe temperature conditions
RRF2205	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films-agricultural films, packaging films, mulches	Asia-Middle east specific	Very High- for sensitive applications-nuclear, defense with severe conditions, severe temperature conditions

FILM GRADES- SOUTH EAST ASIA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRF0099	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films-agricultural films, packaging films, mulches	Asia-South east - Including Malaysi, Singapore and parts of China	High- effective against most aggressive species and long life span, severe temperature conditions
RRF2331	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films-agricultural films, packaging films, mulches	Asia-South east - Including Malaysi, Singapore and parts of China	High- effective against most aggressive species and long life span, severe temperature conditions
RRF1215	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily	Films-agricultural films,	Asia-South east - Including	Very High- for sensitive applications-

		for PVC)	packaging films, mulches	Malaysi, Singapore and parts of China	nuclear, defense with severe conditions, severe temperature conditions
RRF2106	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	Asia- South east - Including Malaysi, Singapore and parts of China	Very High- for sensitive applications- nuclear, defense with severe conditions, severe temperature conditions

FILM GRADES- AUSTRALIA AND AFRICA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRF0081	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	Australian and African regions	High- effective against most aggressive species and long life span, tropical conditions
RRF2232	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	Australian and African regions	High- effective against most aggressive species and long life span, tropical conditions
RRF1116	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	Australian and African regions	Very High- for sensitive applications- nuclear, defense with severe

					conditions, tropical conditions
RRF2007	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	Australian and African regions	Very High- for sensitive applications- nuclear, defense with severe conditions, tropical conditions

FILM GRADES-USA AND CANADA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRF0072	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	USA and Canada	High- effective against most aggressive species and long life span
RRF2133	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	USA and Canada	High- effective against most aggressive species and long life span
RRF1017	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	USA and Canada	Very High- for sensitive applications- nuclear, defense with severe conditions, effective against larger species like grizzly bears, martens
RRF1908	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily	Films- agricultural films,	USA and Canada	Very High- for sensitive applications-

		for PE)	packaging films, mulches		nuclear, defense with severe conditions, effective against larger species like grizzly bears, martens
--	--	---------	--------------------------	--	---

FILM GRADES- SOUTH AMERICA

Grade	Physical Form	Compatibility	Application	Region	Strength
RRF0063	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	South American Continent including the Amazon basin	High- effective against most aggressive species and long life span
RRF2034	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	South American Continent including the Amazon basin	High- effective against most aggressive species and long life span
RRF0918	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PVC)	Films- agricultural films, packaging films, mulches	South American Continent including the Amazon basin	Very High- for sensitive applications- nuclear, defense with severe conditions
RRF1809	Solid Granules	PVC, PE, PP, Polyurethane, Rubber (Primarily for PE)	Films- agricultural films, packaging films, mulches	South American Continent including the Amazon basin	Very High- for sensitive applications- nuclear, defense with severe conditions

SPECIAL GRADES

Grade	Physical Form	Compatibility	Application	Region	Strength
RR0009	Solid Granules	HIPS, ABS, high performance plastics	Customized for various applications where MOC has to have superior mechanical properties	Asia- India specific grade	High, against all aggressive species, long life span
RR0009-EU	Solid Granules	HIPS, ABS, high performance plastics	Customized for various applications where MOC has to have superior mechanical properties	Europe	Effective against species found in Europe ex. Norway rat, long life span
RR0009-SEA	Solid Granules	HIPS, ABS, high performance plastics	Customized for various applications where MOC has to have superior mechanical properties	Asia-South east - Including Malaysi, Singapore and parts of China	High- effective against most aggressive species and long life span, severe temperature conditions
RR0009-MEA	Solid Granules	HIPS, ABS, high performance plastics	Customized for various applications where MOC has to have superior mechanical properties	Asia-Middle east specific	High- effective against most aggressive species and long life span, severe temperature conditions
RR0009-USC	Solid Granules	HIPS, ABS, high performance plastics	Customized for various applications where MOC has to have	USA and Canada	High- effective against most aggressive species and long life span

			superior mechanical properties		
RR0009-AA	Solid Granules	HIPS, ABS, high performance plastics	Customized for various applications where MOC has to have superior mechanical properties	Australian and african regions	High- effective against most aggressive species and long life span, tropical conditions
RR0009-SA	Solid Granules	HIPS, ABS, high performance plastics	Customized for various applications where MOC has to have superior mechanical properties	South American Continent including the Amazon basin	High- effective against most aggressive species and long life span

The following masterbatch has been developed for highly sensitive military defense applications, the details of which are extremely confidential and are therefore shared only on request with an expression of interest and subject to a confidentiality/non disclosure agreement
